Foundational skills

WEB DEVELOPMENT EXPERIENCE

UNH Coding Bootcamp

Team Projects
Developed **Code Break**, a web application that allows users to save code snippets and view and comment on other users' code snippets (Features: React, Node.js, Express.js, Highlight.js, GraphQL, MongoDB and Mongoose, Robo 3T, Bcrypt, JSON Web Tokens (JWT), and Dotenv.)

Created **Reciflixor**, an application that enables movie lovers to watch a movie and enjoy a meal shown in the movie (Features: Restful APIs, Heroku, Git branching workflow, Agile software development methodology.)

Individual Projects
Developed **Zentechi**, a technology blog site where developers can publish blog posts and comment on other developers' posts (Features: Heroku, MVC paradigm, Handlebars.js templating language, Sequelize ORM, and Express-Session NPM package for authentication.)

Created a **Workout Tracker** that allows users to create or continue a workout and view a dashboard of graphs displaying total weight lifted and total duration of workouts by day. (Features: Mongo database, a Mongoose schema and Express routes, customization of the front-end code that was provided.)

Additional projects available on GitHub: https://github.com/NDaruwalla.
